**Subject:** Microsoft Settlement.

To Whom it may concern

Please be advised that I feel as do many of my co workers do that the suit against Microsoft should be finished by forcing the remaining 9 States that have not settled to come to some type of agreement with Microsoft. The US taxpayer has had enough time wasted on this suit and wants it over with. Also it is my opinion that the US Judicial System should show more restraint of actions against Microsoft in the future because its certainly starting to look like their singling out one corporation even though that corporation has done so much to provide increased productivity applications not only for the United States Corporations but for Corporations around the World.

Thank You
